# Greeting Cards

1 **Print out** the template of the card and flower shapes onto cardstock or paper and cut them out.

2 **Fold** the card printout in half with the markings for slits on the inside left of the card. **Colour and glue** the printed flower shapes onto the front of the card to create your flower and stem.

3 **Cut along** the allocated markings on the inside of the card to create 2 slits then thread the elastic band through both slits to create two small loops. Place your **Kinder Chocolate** in these loops.

4 **Fold** the printed flowerpot shape into a box at the designated locations on the template. Fold in the bottom tab to form the bottom of the pot.

5 **Apply glue** to the marked side areas to secure the flowerpot shape and then glue the finished flowerpot over half of the Kinder Chocolate.

You Need:

- Kinder Chocolate
- Cardstock OR Paper (coloured)
- Rubber bands
- Glue
- Scissors
